AMT[®]
GASTROGÜSS

THE
"WORLD'S
BEST PAN"^{*}

^{*} "The world's best pan" according to VKD,
largest German Chefs Association

The advantages of using AMT Gastroguss products:

+ Aluminum body provides **superior thermal conductivity**, heat retention and transmission. That translates to **lesser energy consumption and smaller energy bills**. Save up to 20% in time and energy

+ Reinforced Lotan® Surface, providing **non-stick effect**, great browning and amazing culinary results. No more extra oils or fats for frying, no baking paper needed to prevent food from sticking to the surface. Make **savings on lesser exploitation of consumables**

+ Frying, baking and serving sauces directly from one and the same dish instead of three. **Save time, space, energy and later – water & detergents for cleaning up the cookware.**

+ Enables superbly even browning with **perfect results** as well as a fantastic patterns with our Grill & BBQ range of available products

+ **thick thermal base** ensures a **quick and even heat distribution**, not only on the bottom but also at the walls of the cookwares.

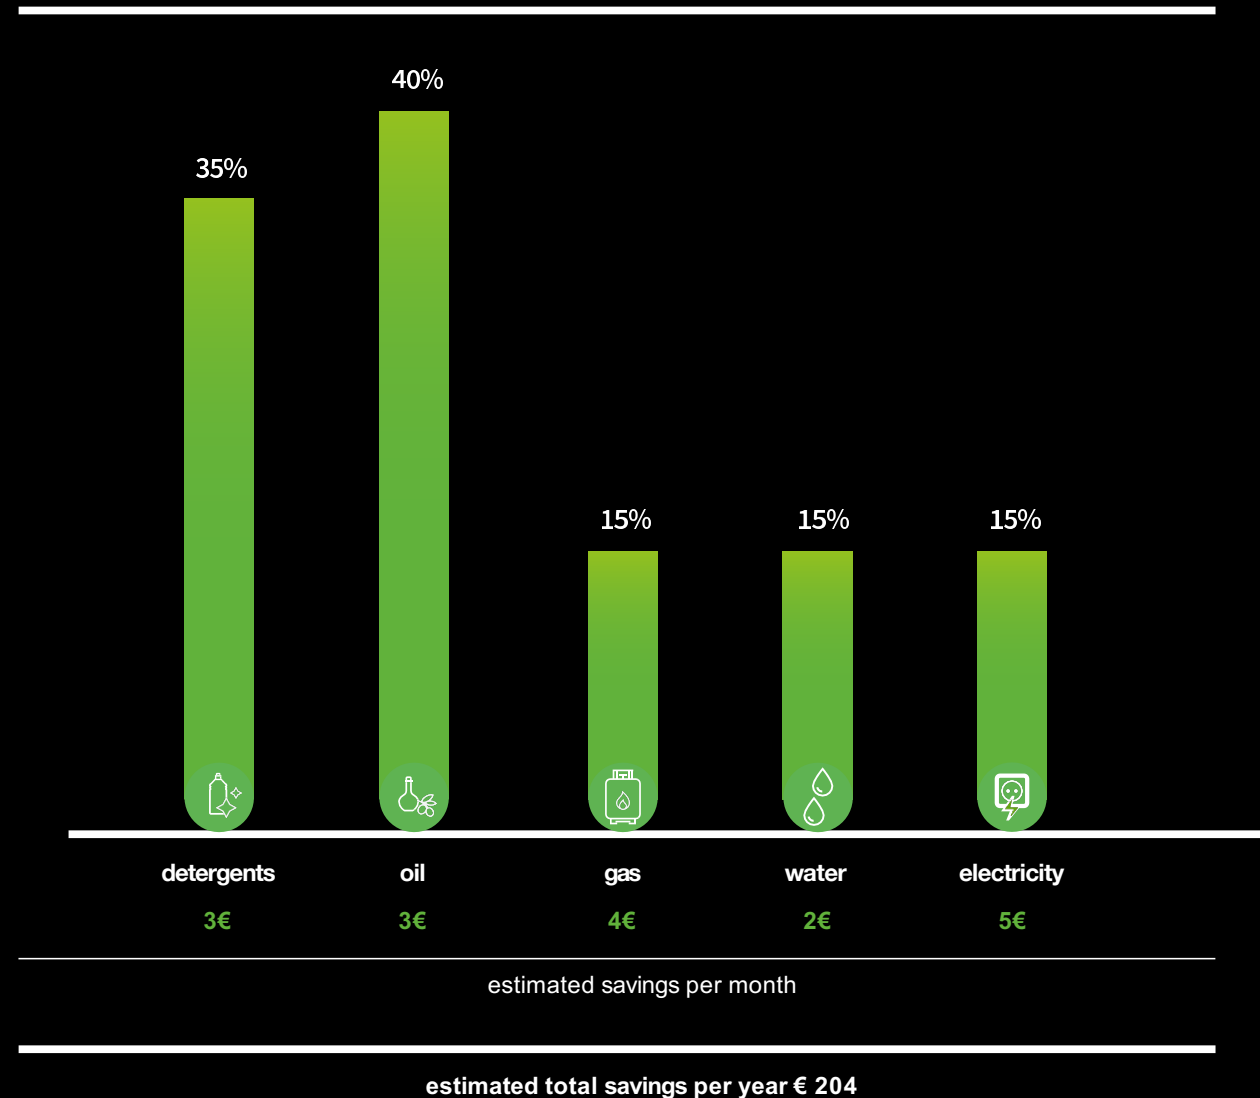

Focus Money awarded us "Gold"
in the "Best quality to price ratio" category

**The world's best pan" according to VKD, largest German Chefs Association
